RE: Denial of Application for Right-of-Way Utilization

Dear Mr. Fairbrother:

We recently received two Right-of-Way Utilization Permit Applications from Mobilitie, LLC requesting permission for the installation of a 120' utility pole.

The referenced Right-of-Way Utilization Permit Applications are being denied and returned to you, along with the plans you submitted. The proper channel for you to request permission for the installation of such a pole is through the Lake County Department of Economic Growth, Planning and Zoning Division. Pursuant to Lake County Code Section 3.01.03, Schedule of Permitted and Conditional Uses, you will be required to submit for a Conditional Use Permit. You will also need to follow the requirements, including those for setback, outlined in Section 3.13.00 – Wireless Antennas, Towers, and Equipment Facilities.

Please contact the Department of Economic Growth at (352) 343-9739 regarding this matter, and they will be able to help you with your request.

Sincerely,

Jim Stivender, Jr., P.E., P.L.S  
Director
